Management Report

Prodigy Emerging Markets Opportunities Fund

The Sub-Fund appreciated by 9% in GBP in 2017 (equivalent to approximately 20% when translated into in USD). The performance was attributable to appreciation of positions across the portfolio. The largest contributors were the Macau Properties Opportunities position which appreciated by 49% and Corning Glass which rose 32%. The recovery in the Sub-Fund's positions in banking shares which had languished in 2015 continued into 2017. The Investment Manager took advantage of strength in the markets to reduce exposure to equities; cash and near-cash investments represented 50% of the portfolio at year-end and only nine equity positions remained. The portfolio is managed to achieve returns in the long term and there is a focus on companies whose underlying cash flow is strong and sustainable. The cash balances will be deployed to take advantage of opportunities to buy such companies at attractive valuations.

JP Global Emerging Markets Fund

By the end of December 2017, the value of the USD class of the Sub-Fund, had increased in value by 35.3% net of all fees compared with a benchmark return of 37.5%.

The unexpected weakness of the US Dollar, a powerful year-end rally in Chinese banks where the Sub-Fund has no exposure and the underperformance of many technology and mid cap stocks during December dented much of the outperformance that had built up during 2017. The Sub-Fund's bias towards concentration in terms of country and stock selection meant that some markets which performed well, such as Czech Republic, Poland and Greece were absent from the portfolio. In the case of Turkey where the local equity market rose by an anomalous 14.9% in December, this market was avoided owing to the toxic mix of rising inflation and a less than stable political outlook.

Malaysia remains the second largest weight in the Sub-Fund after China. The exposure is justified by an improving macro outlook and an undervalued currency; inflation continues to fall while an incipient investment-led cycle should underpin demand. External investments from major Chinese heavyweights such as Alibaba and Geely Automobile marks a vote of confidence in Malaysia's underappreciated improvements in productivity.

The relatively low exposure for most of the year to South Korean equities was partly reversed by an increase in the Sub-Fund's weighting towards the end of the year from 2.3% to 10%. The antics of the North Korean leader Kim Jong-Un and his missile tests proved an unwelcome distraction from the strength of South Korea's economy, signified by the strength of the Won. The difficulty for investors in Korea is finding companies oriented towards the domestic economy that are undervalued or can demonstrate above average growth in revenue and earnings.

Outside of Asia, the weighting in Mexican stocks was lowered in the face of a less appealing macro picture, not helped by the possible repeal of NAFTA which is likely to hang over the market for some time. In South Africa meanwhile, the elevation of Cyril Ramaphosa to the head of the ANC made the rand the best performing currency in December, rising against the dollar by 9.3%. Whether the decline of Zuma and attendant corruption leads to a sustained rerating of South African assets remains to be seen however.

Will the trend of emerging markets outperforming developed markets, which started at the beginning of 2016, continue into the New Year? Compared to developed markets, emerging markets still enjoy a positive combination of reasonable valuations helped by moderate rates of inflation and good earnings growth, supported by the growing strength of the macro outlook in Asia lead by a resurgent China. For these reasons we believe there is a good chance of emerging markets providing above average returns in 2018.

Management Report (continued)

Hudson Fund

2017 is now in the books and it has been a record year for US stocks. The S&P 500 Index climbed more than 1% in December, crowning its best calendar performance since 2013 (21.8% for the year as a whole) and a ninth consecutive year of gains. Volatility was also historically low in 2017 and for the first time in its history, the S&P 500 (on a total return basis) recorded no monthly losses.

In USD terms, the Sub-Fund has performed well on an absolute basis, as the S-share class gained over 16%. The R-share class, denominated in EUR, didn't fare as well, as the US Dollar depreciated against the Euro in 2017. The value-biased positioning of the portfolio partly explains the underperformance of the Sub-Fund versus a core benchmark such as the Russell 3000, as the Value style severely underperformed the Growth style in 2017. As a comparison, the Russell 3000 Growth index and the Russell 3000 Value index returned 29.6% and 13.2% respectively in 2017.

Entering 2018, the Investment Managers (IM) remain very optimistic about the US equity market for a number of reasons. Most importantly, investors remain focused on the solid fundamentals of the US economy and a positive earnings growth outlook from US corporations, which should be boosted in 2018 by the recently adopted tax reform.

The investment approach has not wavered and continues to be based on the expertise of external managers. The IM rely on their stock selection in a particular sector, where they believe the manager has demonstrated a particular ability. In 2017, they made a couple of changes to their manager line-up. In May, they switched their Consumer Discretionary manager. This was a proactive change as they believe they found a more compelling manager in that space. More recently, in October, they switched their manager advising them in the Industrials sector, after losing conviction and patience with their previous manager. They believe their new selected manager is better positioned to outperform moving forward.

While the IM didn't receive any new net flows in 2017, their pipeline continues to grow. They recently launched a USD-denominated Retail share class which should enable them to ramp up their marketing efforts and provide more options to prospecting investors looking for access to the US equity market. They continue to gain traction in Europe and increase their prospect to raise capital and further diversify their client base in 2018.

Semper Strategic Focus High Yield Fund

In 2017, high yield bonds exhibited returns of ~7%, broadly in line with the 20-year median for the indices. Despite most indices beginning the year with an average coupon of 6.6% and a yield-to-worst of 6.5%, the high yield asset class provided performance that was slightly above the coupon for the year. Of the 7% return, 0.6% basis points came from capital appreciation and 6.4% came from interest received from coupon payments. High yield returns reflected the strength of a market absorbing a Fed rate hike, resurfacing rate volatility, the passage of a tax bill and a multi-year high for oil prices. The Semper Strategic Focus High Yield Fund had positive performance in 2017 with a consistent annualized dividend distribution of 6.7% for the A1 share class dividend yield and 6.4% for the C1 dividend yield. Given the run up in the high yield market, it was a difficult market to replicate the Fund's 23% returns generated in 2016. The total returns were approximately 5.2% for the A1 USD share class and 3.6% for the C1 hedged GBP share class. The C1 GBP share class experienced lower returns than the USD share class given costs associated with hedging. Assets under management started 2017 at \$72M and ended the year at \$103M, an increase of 43%.

The Fund's strategy of investing in higher yielding and lower duration credits resulted in income generation that was in line with the fund manager's expectations. The average price of the Fund's portfolio in 2017 was \$97.5 versus \$89 in 2016 which compares to just over par for the JPMorgan Index throughout 2017. The average yield-to-worst of the Fund's portfolio throughout 2017 was 8% versus 12% in 2016. The average duration of the portfolio in 2017 was 2.5 years, which was consistent with the average duration in 2016, while the average tranche size was also relatively unchanged at \$350 million.

Management Report (continued)

Semper Strategic Focus High Yield Fund (continued)

The portfolio maintained attractive credit statistics with similar leverage and coverage ratios to the prior year. The sectors in the portfolio that generated the strongest 2017 returns were Healthcare, Chemicals and Gaming while the sectors suffering the most pricing pressure included Retail and Supermarkets. By design, the fund maintained a reduced exposure to select sectors such as Financials and Energy. The portfolio had one credit default in the autumn of 2017 which was a smaller position relative to average portfolio position sizes and accounted for approximately 55 basis points of negative return. The LTM default rate was 1.5% for the Semper Strategic Focus Fund. This compares to the high yield market default rate for 2017 of 1.3%, down from the 4% LTM default rate at the beginning of the year. The decline in the broader market default rate is largely attributable to the recovery in Energy and Metals/Mining sectors.

Looking at the greater context of the high yield market, bond spreads tightened during the year from 480bps to 404bps, which is still well off the tights of 270bps reached in May 2007. With an expectation that interest rates will rise steadily in 2018 and projections anticipating a 2.5% default rate, the backdrop for high yield remains favorable from a coupon clipping perspective but with limited capital appreciation. In the context of this current environment, our view is that the excess coupon of 8.5% for the Semper Focus Fund versus the broader market coupon of 6.5% should provide an opportunity to continue to pay out predictable quarterly distributions.

Report of the réviseur d'entreprises agréé

To the Shareholders of THE INDEPENDENT UCITS PLATFORM Société d'investissement à Capital Variable 4, rue Jean Monnet L-2180 Luxembourg

Opinion

Following our appointment by a notice to the shareholders dated 19 April 2017, we have audited the accompanying financial statements of THE INDEPENDENT UCITS PLATFORM (the "SICAV") and of each of its sub-funds, which comprise the statement of net assets and the schedule of investments as at 31 December 2017 and the statement of operations and changes for the year then ended, and a summary of significant accounting policies and other explanatory notes to the financial statements.

In our opinion, the financial statements give a true and fair view of the financial position of the SICAV as at 31 December 2017 and of the results of its operations and changes in its net assets for the year then ended in accordance with the Luxembourg legal and regulatory requirements relating to the preparation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under those Law and standards are further described in the « Responsibilities of réviseur d'Entreprises Agréé for the Audit of the Financial Statements » section of our report. We are also independent of the SICAV in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the SICAV is responsible for the other information. The other information comprises the information stated in the annual report including the management report but does not include the financial statements and our report of réviseur d'Entreprises Agréé thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

Report of the réviseur d'entreprises agréé (continued)

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report this fact. We have nothing to report in this regard.

Responsibility of the Board of Directors of the SICAV for the financial statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements and for such internal control as the Board of Directors of the SICAV determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the SICAV is responsible for assessing the SICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the SICAV either intends to liquidate the SICAV or to cease operations, or has no realistic alternative but to do so.

Responsibility of the Réviseur d'Entreprises Agréé

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of réviseur d'Entreprises Agréé that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
 are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness
 of the SICAV's internal control.
- Evaluate appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the SICAV.
- Conclude on the appropriateness of Board of Directors of the SICAV's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the SICAV's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of réviseur d'Entreprises Agréé to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of réviseur d'Entreprises Agréé. However, future events or conditions may cause the SICAV to cease to continue as a going concern.

Report of the réviseur d'entreprises agréé (continued)

• Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the Financial Statements as at 31 December 2017

NOTE 1 GENERAL

THE INDEPENDENT UCITS PLATFORM ("the SICAV") is a Luxembourg open-ended investment company established as from 5 September 2012 as a société d'investissement à capital variable (investment company with variable capital) formed as a société anonyme (public limited company).

The SICAV is subject to the provisions of Part I of the Luxembourg law of 17 December 2010 which relate to undertakings for collective investment in transferable securities as may be amended from time to time.

The SICAV offers its shareholders investments in a selection of negotiable securities and other eligible financial assets combining high growth potential and a high degree of liquidity.

The SICAV may offer shares (each a "Share") of one or several separate sub-funds (each a "Sub-Fund").

The SICAV has currently four active Sub-Funds:

- Prodigy Emerging Markets Opportunities Fund (denominated in GBP) with two active classes of Shares:
 - Class A (distributing) denominated in GBP and intended for institutional investors only
 - Class C (accumulating) denominated in GBP and intended for all types of investors
- JP Global Emerging Markets Fund (denominated in USD) with two active classes of Shares:
 - Class A (accumulating) denominated in USD and intended for institutional investors or elective professional investors (qualifying as institutional investors under UK regulations) only
 - Class B (hedged/accumulating) denominated in GBP and intended for institutional investors or elective professional investors (qualifying as institutional investors under UK regulations) only
- Hudson Fund (denominated in USD) with two active classes of Shares:
 - Class S-USD (accumulating) denominated in USD and intended for all types of investors
 - Class R-EUR (accumulating) denominated in EUR and intended for all types of investors
- Semper Strategic Focus High Yield Fund¹ (denominated in USD) with two active classes of Shares:
 - Class A1 (distributing) denominated in USD and intended for institutional investors only
 - Class C1 (hedged/distributing) denominated in GBP and intended for institutional investors only

NOTE 2 ACCOUNTING PRINCIPLES

The financial statements of the SICAV are prepared in accordance with Luxembourg generally accepted accounting principles applicable to undertakings for collective investment, including the following significant policies:

2.1) Conversion of foreign currencies

The financial statements and accounting records of the SICAV are expressed in the reference currency of each Sub-Fund and consolidated in USD. Cash at bank, other net assets and liabilities and the market value of the securities in portfolio expressed in currencies other than the currency of the Sub-Fund are converted into this currency at the exchange rate prevailing at the date of the report. Transactions in currencies other than the Sub-Fund's currency are translated into the Sub-Fund's currency based on the exchange rates in effect at the date of the transaction.

As at 31 December 2017, the main exchange rates are as follows:

1 USD	=	3.317102	BRL	19.565643	MXN
		17.779990	EGP	4.046994	MYR
		0.832778	EUR	49.920128	PHP
		0.739235	GBP	32.590275	THB
		7.817325	HKD	3.791599	TRY
		258.331848	HUF	29.758362	TWD

¹Formerly denominated Airlie Strategic Focus High Yield Fund.

Notes to the Financial Statements as at 31 December 2017 (continued)

NOTE 2 ACCOUNTING PRINCIPLES (continued)

2.2) Valuation of assets

The value of any cash on hand or on deposit, bills and demand notes payable and accounts receivable, prepaid expenses, cash dividends and interests declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.

The value of any security or other asset which is quoted or dealt in on a stock exchange is based on its last available price in Luxembourg on the stock exchange which is normally the principal market for such security.

The value of any security or other asset which is dealt in on any other Regulated Market is based on its last available price in Luxembourg.

Unlisted securities are valued on the basis of a relevant pricing source or, in the absence of such pricing source, on the reasonably foreseeable sales price estimated by the Board of Directors with prudence and good faith.

Units of undertakings for collective investment are valued at their last determined and available net asset value or, if such price is not, in the opinion of the Board of Directors, representative of the fair market value of such assets, then the price shall be determined by the Board of Directors on a fair and equitable basis.

2.3) Net realised profit or loss on sales of investments

The net realised profit or loss on sales of investments is determined on the basis of the average cost of investments sold.

2.4) Acquisition cost of investments

The cost of investments expressed in currencies other than the Sub-Fund's currency is converted into the Sub-Fund's currency at the exchange rate prevailing on purchase date.

2.5) Derivatives

Financial derivative instruments listed on an official exchange or dealt in on another Regulated Market are valued on the basis of the last available price.

Financial derivative instruments which are not listed on any official stock exchange or traded on any Other Regulated Market are valued in a reliable and verifiable manner on a daily basis in accordance with market practice.

Forward foreign exchange contracts

Outstanding forward foreign exchange contracts, if any, are valued at the closing date by reference to the forward exchange rate applicable to the remaining period from valuation date to the maturity of the contracts.

The unrealised appreciation or depreciation on open forward foreign exchange contracts is calculated as the difference between the contract rate and the forward rate at the close of business on the valuation day and is disclosed in the Statement of Net Assets under the heading "Unrealised appreciation on forward foreign exchange contracts" and/or "Unrealised depreciation on forward foreign exchange contracts".

The realised profit or loss on forward foreign exchange contracts is disclosed in the Statement of Operations and Changes in Net Assets under the heading "Net realised gain/(loss) on forward foreign exchange contracts".

Contracts for differences

Contracts for differences, if any, are valued on the basis of the difference between the closing price or closing value of their underlying on the valuation date and on the acquisition date.

The realised profit or loss on contracts for differences is disclosed in the Statement of Operations and Changes in Net Assets under the heading "Net realised gain/(loss) on contracts for differences".

<u>Options</u>

Outstanding options contracts, if any, are valued at the closing date at the last available market price of the instruments.

The market value of options contracts is included in the Statement of Net Assets under the heading "Options at market value". All margins are included in "Margins paid" or "Margins received".

The net realised gain or loss on options contracts is disclosed in the Statement of Operations and Changes in Net Assets under the heading "Net realised gain/(loss) on options contracts".

Notes to the Financial Statements as at 31 December 2017 (continued)

NOTE 2 ACCOUNTING PRINCIPLES (continued)

2.5) Derivatives (continued)

Futures

Outstanding futures contracts, if any, are valued at the closing date at the last available market price of the instruments.

The realised profit or loss on futures is disclosed in the Statement of Operations and Changes in Net Assets under the heading "Net realised gain/(loss) on futures contracts".

2.6) Unrealised profit or loss

In accordance with current practices, unrealised profits or losses at the end of the financial year/period are accounted for in the financial statements.

2.7) Investment income

Interest income is accrued on a day-to-day basis and dividends are accounted on an ex-dividend basis. Interests and dividends are stated net of irrecoverable withholding taxes, if any.

2.8) Formation expenses

Expenses incurred in connection with the incorporation of the SICAV including those incurred in the preparation and publication of the first prospectus and constitutive documents, as well as the taxes, duties and any other incorporation and publication expenses, are estimated at USD 9,000.- and are amortized over a maximum period of five years.

Expenses incurred in connection with the creation of any additional Sub-Fund shall in principle be borne by the relevant Sub-Fund and will be written over a period of five years. Hence, the additional Sub-Funds shall not bear a pro rata of the costs and expenses incurred in connection with the creation of the SICAV and the initial issue of shares, which have not already been written off at the time of the creation of the new Sub-Fund(s).

As decided by the Board of Directors, the formation costs of the Sub-Funds JP Global Emerging Markets Fund and Jackdaw Real Estate Fund¹ are totally charged to the Management Company. However, for the Sub-Fund Jackdaw Real Estate Fund¹, the Board of Directors decided on 17 February 2014 to allocate part of the formation costs to the Sub-Fund.

2.9) Combined figures

The combined Statement of Net Assets and the combined Statement of Operations and Changes in Net Assets are expressed in United States Dollars ("USD") and are presented for information purposes only.

For this purpose, the corresponding statements of the Sub-Funds Prodigy Emerging Markets Opportunities Fund and Jackdaw Real Estate Fund¹ have been translated into USD at the exchange rate prevailing at the balance sheet date.

NOTE 3 MANAGEMENT COMPANY, INVESTMENT MANAGEMENT, PERFORMANCE AND INVESTMENT ADVISORY FEES

3.1) Management company fee

The Sub-Funds **Prodigy Emerging Markets Opportunities Fund**, **JP Global Emerging Markets Fund** and **Jackdaw Real Estate Fund**¹ further pay to the Investment Manager a performance fee calculated on a daily accrual basis with annual crystallisation (monthly crystallisation for the Sub-Fund **Jackdaw Real Estate Fund**¹).

The performance fee is accrued on each Valuation Day for all Sub-Funds. The performance fee is charged at the increase of the amount by which the performance of the relevant class exceeds the hurdle rate for the Sub-Funds **Prodigy Emerging Markets Opportunities** and **Jackdaw Real Estate Fund**¹.

For the Sub-Fund JP Global Emerging Markets Fund, the performance fee is charged at the increase of the amount by which the performance of the relevant class exceeds the combined performance of the performance benchmark, defined as the MSCI Emerging Markets Index with Net Dividends Reinvested, plus the investment management fee, provided that the current net asset value of the relevant class is higher than the high water mark (as defined in the Prospectus).

In the event that there is a net redemption of shares in a class during a performance period, the performance fee accrual to be added to each share is calculated on the reduced number of shares in issue for that class. In such circumstances, the performance fee accrual for redeemed share is crystallised and paid to the Investment Manager from the Sub-Fund.

The hurdle rate and performance fee applied to each Sub-Fund are as follows:

- **Prodigy Emerging Markets Opportunities Fund**: the hurdle rate is in the first instance an absolute return and secondly 3 Months LIBOR plus an absolute 1.50% over the performance period. Where the hurdle rate and the high water mark are exceeded, the performance fee payable per class is equal to 10% of the amount by which the final net asset value per class for the performance period exceeds the relevant hurdle rate.
- **JP Global Emerging Markets Fund**: where the performance benchmark plus the investment management fee and the high water mark are exceeded, the performance fee payable per class is equal to 10% of the amount by which the final net asset value per class for the performance period exceeds the relevant performance benchmark plus the investment management fee.
- **Jackdaw Real Estate Fund**¹: where the high water mark is exceeded, the performance fee payable for the Class Founder A1 is equal to 15% if the net assets of the Sub-Fund are below EUR 20 million and 10% if the net assets of the Sub-Fund are above EUR 20 million, for the Class B1 is equal to 17,5% and for the Class B2 is equal to 20% of the amount by which the final net asset value per class for the performance period exceeds the relevant performance benchmark.

For the Class Founder A2 no performance fee was calculated.

For the period ended 31 December 2017, performance fees of GBP 4,873.- and USD 16,943.- have been paid respectively by the Sub-Funds Prodigy Emerging Markets Opportunities Fund and JP Global Emerging Markets Fund.

¹Closed on 9 March 2017.

NOTE 3 MANAGEMENT COMPANY, INVESTMENT MANAGEMENT, PERFORMANCE AND INVESTMENT ADVISORY FEES (continued)

3.3) Investment advisory fee

Pursuant to the Investment Advisory Agreement, the Management Company pays, at the expense of the Sub-Fund **Semper Strategic Focus High Yield Fund**¹, an investment advisory fee to the Investment Advisor in remuneration for its services, as follows:

- 0.40% per annum of the average net assets of the Sub-Fund during the relevant month. Such fee is payable monthly out of the management company fee.

The Management Company pays, at the expense of the Sub-Fund **Hudson Fund**, an additional fixed fee to the Investment Manager equal to 0.55% per annum of the average net assets of the Sub-Fund during the relevant quarter. The Investment Manager uses that fee to remunerate investment advisors in relation to the advisory relationships. Such fee is accrued on each Valuation Day and payable quarterly in arrears.

NOTE 4 DEPOSITARY FEES

The Depositary receives, out of the assets of each Sub-Fund, a remuneration calculated in accordance with customary banking practice in Luxembourg and expressed as a percentage per annum of the average monthly net assets thereof during the month under review and payable monthly in arrears.

The Depositary is currently paid 0.020% per annum on the average net assets of each Sub-Fund during the relevant month with a minimum of USD 2,000.- per month and per Sub-Fund.

NOTE 5 DOMICILIARY AND CORPORATE AGENT FEES

The Domiciliary and Corporate Agent receives from the SICAV a remuneration in accordance with customary banking practice in Luxembourg and expressed as a flat fee payable yearly in advance.

The actual fee amounts to EUR 10,000.- per annum for the SICAV as a whole.

NOTE 6 ADMINISTRATION AND TRANSFER AGENT FEES

The Administrative Agent receives from the Management Company at the charge of the SICAV, out of the assets of each Sub-Fund, a remuneration calculated in accordance with customary banking practice in Luxembourg and expressed as a percentage per annum of the average monthly net assets thereof during the month under review and payable monthly in arrears.

The Administrative Agent is currently paid up to 0.07% per annum on the average net assets of each Sub-Fund during the relevant month with a minimum of EUR 1,900.- per month and per Sub-Fund, except for the Sub-Fund **Semper Strategic Focus High Yield Fund**¹ for which the minimum is EUR 2,500.-, plus EUR 350.- per month per hedged class in each relevant Sub-Fund.

The Registrar and Transfer Agent receives from the Management Company at the charge of the SICAV, out of the assets of each Sub-Fund, a remuneration calculated in accordance with customary banking practice in Luxembourg and expressed as flat fees payable monthly in arrears.

The Registrar and Transfer Agent is currently paid at the following tariffs:

- a maintenance fee of EUR 180.- per class per month for all Sub-Funds except for the Sub-Fund **Semper Strategic Focus High Yield Fund** for which the maintenance fee is EUR 250.-;
- a shareholder servicing fee of EUR 110.- per shareholder account per annum; and
- a transaction fee of up to EUR 30.- per transaction.

¹Formerly denominated Airlie Strategic Focus High Yield Fund.

Notes to the Financial Statements as at 31 December 2017 (continued)

NOTE 7 TRANSACTION COSTS

For the year/period under review, the SICAV incurred transaction costs in relation to purchase or sale of financial instruments.

The amount of transaction costs supported by the SICAV is included in the Statement of Operations and Changes in Net Assets under the heading "Transaction costs".

The transaction costs mainly relate to brokerage fees.

NOTE 8 TAXATION

The SICAV is subject to Luxembourg tax laws and is liable to a tax (taxe d'abonnement) of 0.05% per annum of its net asset value. This tax is reduced to 0.01% per annum of its net asset value allocated to classes intended for institutional investors. Such tax is payable quarterly on the basis of the value of the aggregate net assets of the SubFunds at the end of the relevant calendar quarter. However, the portion of assets which are invested in units of UCITS and UCIs shall be exempt from such tax as far as those UCITS and UCIs are already submitted to this tax in Luxembourg.

Due to the presence of a retail investor in the Class A of the Sub-Fund Prodigy Emerging Markets Opportunities Fund, the Class A of this Sub-Fund may not benefit from the reduced rate of taxation, and that the rate of 0.05% is fully applicable to the Class A. The Board further resolved to review that situation once the relevant shareholder may convert his Class A shares into shares of another class of shares within the Sub-Fund intended for any other type of investors.

REMUNERATION DISCLOSURE

The Management Company has established a remuneration policy for those categories of staff, including senior management, risk takers, control functions, and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers and whose professional activities have a material impact on the risk profiles of the Management Company or the Fund, that are consistent with and promote sound and effective risk management and do not encourage risk-taking which is inconsistent with the risk profiles or the Fund's Articles.

The remuneration policy is in line with the business strategy, objectives, values and interests of the Management Company and the Fund and of its shareholders, and includes measures to avoid conflicts of interest.

Structure of remuneration packages:

It is stated in the remuneration policy that the remuneration packages of the Management Company are structured around a fixed component and a variable component. The fixed remuneration components are normally granted to all employees of the Management Company with a permanent contract.

The variable remuneration is granted on the basis of the results of the performance assessment process. It shall be based on relevant, pre-determined and measurable criteria linked to the Management Company's corporate values, business strategy goals, long-term interests of its shareholders and clients, and risk management.

The remuneration policy provides that an assessment of the results of the Management Company shall be conducted using a multi-year perspective in order to ensure that the assessment process is based on longer term performance.

The variable remuneration is determined on the basis of a combination of the assessment of the performance of the individual and of the business unit or funds concerned and of the overall results of the Management Company through both financial and non-financial criteria, enabling the alignment of the employees' interests with the Management Company and the funds it manages.

The Management Company shall not offer guaranteed Variable Remuneration.

The Management Company has to maintain a sound financial situation and has to take into consideration any negative financial result and performance of the Management Company and/or the Funds.

Balanced between fixed and variable remuneration:

The remuneration policy also ensures that fixed and variable components of total remuneration are appropriately balanced and the fixed component represents a sufficiently high proportion of the total remuneration to allow the operation of a fully flexible policy on variable remuneration components, including the possibility to pay no variable remuneration component.

Performance assessment:

The Management Company assesses the performance of all of its employees once a year.

Each employee shall be informed of the individual criteria that govern his/her Remuneration and how his/her performance is assessed.

Proportionality principle:

This remuneration policy takes into account the principle of proportionality, which allows procedures, mechanisms and organizational structure to be calibrated to the nature, scale and complexity of the Management Company's business and to the nature and range of activities carried out in the course of its business.

The application of the principle of proportionality is motivated by the size, the internal organization and the nature, scope and complexity of the activities of the Management Company.

REMUNERATION DISCLOSURE (CONTINUED)

In this context, as defined in the ESMA Guidelines, the Management Company decided not to apply the following requirements:

- Requirement to pay out a part of the variable remuneration in instruments and, de facto, the related instrument retention obligations;
- Requirement to pay out a part of the variable remuneration through a deferral scheme and, de facto, the related ex-post risk adjustment obligations (malus);
- Requirement to set up a Remuneration Committee

However, for the purpose of closely monitoring matters linked to remuneration practices, the Management Company has established a Nomination & Remuneration Committee.

Nomination and Remuneration Committee:

The role of the Nomination & Remuneration & Committee, as a specialized committee of the Board of the Management Company, is to assist and advise the Board of the Management Company in all analyses and decisions related to nomination and remuneration.

The Nomination and Remuneration Committee is constituted in a way that enables it to exercise competent and independent judgment on the remuneration policies and practices and the incentives created for managing risks.

Thus, Nomination and Remuneration Committee is composed of members of the Board of Directors of the Management Company who do not perform any executive functions in the Management Company and one representative of the Andbank Group to ensure a consistent approach within the Andbank Group.

	Headcount	Fixed	Variable
		Remuneration	Remuneration
Authorised Management	3	275,550.63	50,000.00
Employees	30	1,809,734.81	318,314.71
Total	33	2,085,285.44	368,314.71

This table reflects the total remuneration amounts paid during the year ended 31 December 2017.

The headcount is therefore related to this remuneration and includes all employees under the payroll 2017.
